

FAQ

Q: How do I play this?

A: <https://www.youtube.com/watch?v=Zw3c5mlEVkY>

Q: How do I change the number of heroes?

A: After loading the mod, save your game as a new save, then load it. Then in TTS, go to 'Modding' -> 'Scripting', then click on 'Global'. You should see `hero_count()` near the top. Replace 4 with the number of heroes you want and hit "Save and Play". This is untested, but in theory should work. In the future, there will be a way in the game to change this setting without modifying any code.

Q: How do I find a secret room tile?

A: Use the map tile search and type in "S1" or "S2".

Q: When are you going to fix XYZ?

A: Please ask in the comments section and make sure you check "Change Notes" for updates.

Q: Why can't other players see the dice pool on the right side of the UI?

A: This is a known bug. Workaround is to reload the mod or rewind time. The dice pool is deprecated and will be removed in a future version. If you have a use for this, please report it in the comments section.

Q: How do I modify the max HP/Fatigue on the figures?

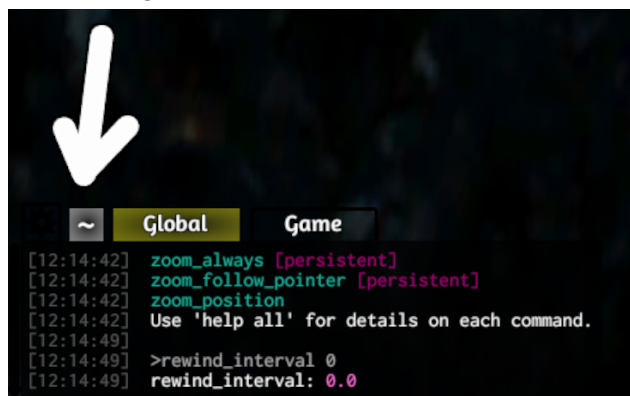

A: If you click on the center of the HP bar, you should be able to pull up a menu with a list of options. There you can change the max HP and max fatigue, along with other options.

Q: The player mats are colored blue / red / yellow / green, does that mean I have to use one of each hero archetype?

A: No, typically a hero team consists of one of each archetype, but you can just play 4 Scouts if you want, for example. At the moment, there's no way to change the color of the mat, but it shouldn't matter.

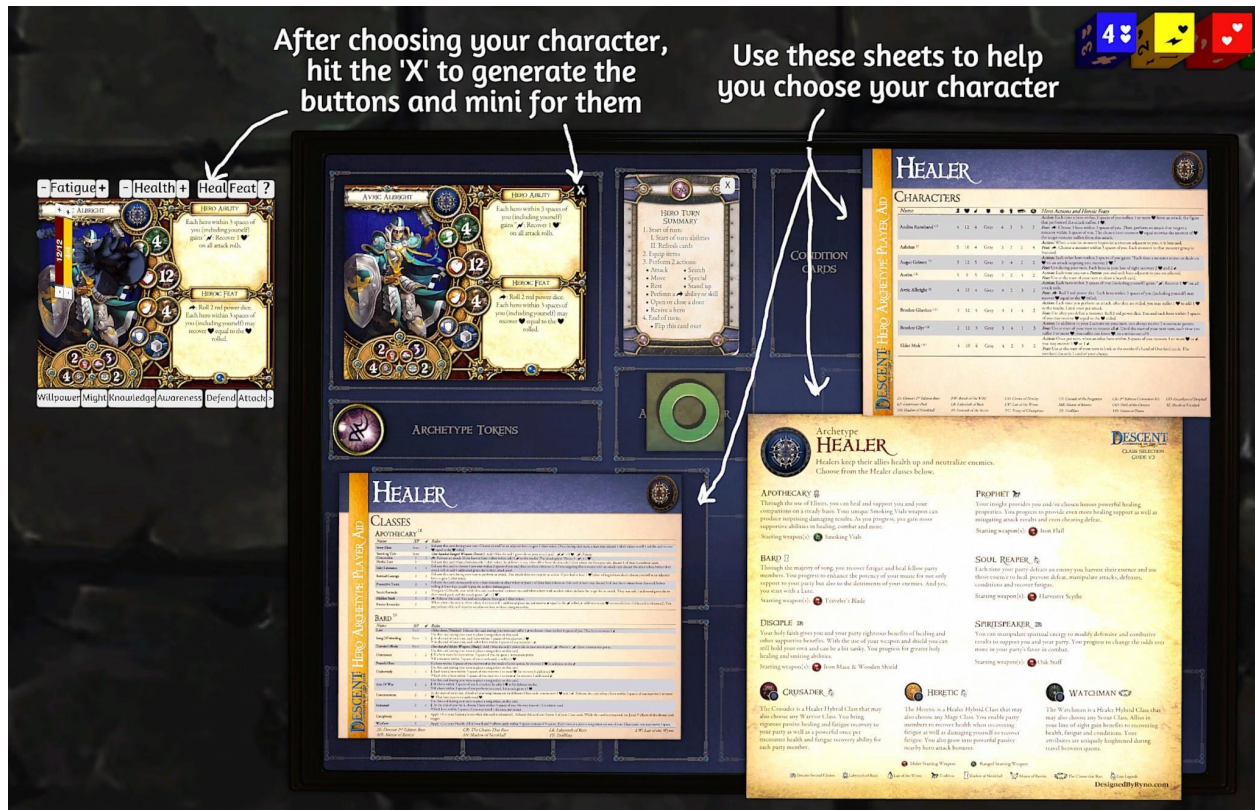

Q: I'm getting a "stuttering" or "lagging" issue every 10 seconds. How do I fix this?

A: It's being worked on. Meanwhile there's a workaround (thanks @Kylen) but you can't rewind:

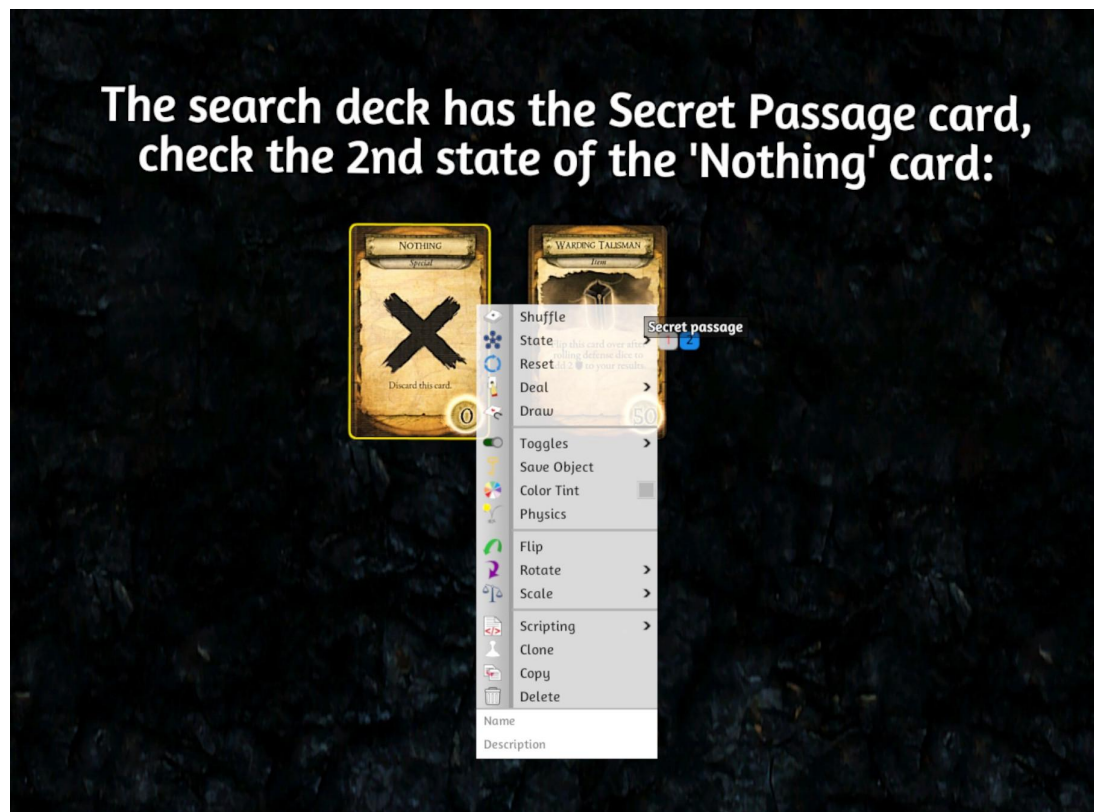

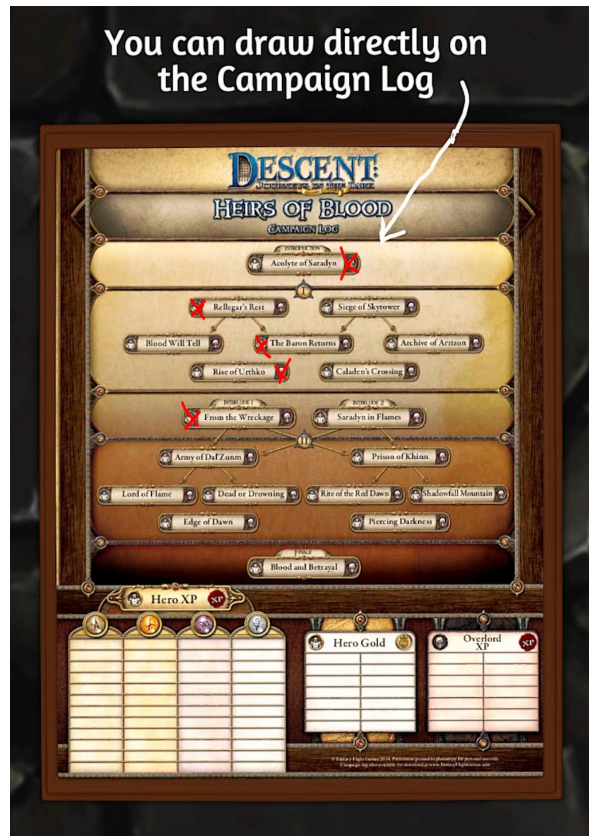

In the console, type in: `rewind_interval 0`
